

## Information for Practitioners: pH Balanced Structured Silver Liquid & Gel Products

- **What is pH Balanced Structured Silver... where can I learn more?**

Go to [www.SilverHealthInstitute.com](http://www.SilverHealthInstitute.com) and learn about using Silver for natural health applications... and learn the difference between pH Balanced Structured Silver and all of the other silvers on the market today. You may also learn specific ways that the liquid and gel products have been utilized for a variety of health and wellness applications. I highly recommend the detailed texts written by Dr. Pedersen.

- **Is this just a new brand of an old silver technology?**

No, pH Structured Silver is entirely new. It is made with new techniques and is materially different than popular silvers of the past such as colloids, ionics, and aquasols. The research, blog articles, and books shared by the Silver Health Institute will provide more information.
